Dear Mr. Kimes,

I've been a paraplegic for 20 years and have used many toilet products but I have never found a toilet seat to be as well constructed and durable as the

Freedom Seat. I have had a Freedom Seat for approximately 4 years and it shows no sign of wear. Most of the other products I've tried, the seat cracks or splits within the first two years of use.

I would highly recommend the Freedom Seat to any person who has a physical need for this product.

Many thanks for the "Freedom" this has granted me.

Barbara Turner
